

§ 2301.10

the Agency application materials and must be submitted in the number of copies specified by the Agency.

(d) Deferred applications that are resubmitted under this section and contain substantial changes will be considered as new applications.

(e) All deferred applications may be subject to a determination of eligibility during subsequent grant cycles.

§ 2301.10 Applications resulting from catastrophic damage or emergency situations.

(a) An application may be filed with a request for a waiver of the closing date, as provided in § 2301.26, when an eligible broadcast applicant suffers catastrophic damage to the basic equipment essential to its continued operation as a result of a natural or man-made disaster, or as the result of complete equipment failure, and is in dire need of assistance in funding replacement of the damaged equipment. This section is limited to equipment essential to a station's continued operation such as transmitters, tower, antennas, STL's or similar equipment which, if the equipment failed, would result in a complete loss of service to the community.

(b) The request for a waiver must set forth the circumstances that prompt the request and be accompanied by appropriate supporting documentation.

(c) A waiver will be granted only if it is determined that the applicant either carried adequate insurance or had acceptable self-insurance coverage.

(d) Applicants claiming complete failure of equipment must document the circumstances of the equipment failure and demonstrate that the equipment has been maintained in accordance with standard broadcast engineering practices.

(e) Applications filed and accepted pursuant to this section must contain all of the information required by the Agency application materials and must be submitted in the number of copies specified by the Agency.

(f) The application will be subject to the same evaluation and selection process followed for applications received in the normal application cycle, although the Administrator may establish a special timetable for evaluation

15 CFR Ch. XXIII (1-1-02 Edition)

and selection to permit an appropriately timely decision.

§ 2301.11 Service of applications.

On or before the closing date, all new or deferred applicants must serve a summary copy of the application on the following agencies:

(a) In the case of an application for a construction grant for which FCC authorization is necessary, the Secretary, Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554;

(b) The state telecommunications agency(-ies), if any, having jurisdiction over the development of broadcast and/or nonbroadcast telecommunications in the state(s) and the community(-ies) to be served by the proposed project; and

(c) The state office established to review applications under Executive Order 12372, 47 FR 30959, 3 CFR, 1982 Comp., p. 197, as amended by Executive Order 12416, 48 FR 15587, 3 CFR, 1983 Comp., p. 186, in all states where equipment requested in the application will be located and where the state has established such an office and wishes to review these applications.

§ 2301.12 Federal Communications Commission authorizations.

(a) Each applicant whose project requires FCC authorization must file an application for that authorization on or before the closing date. NTIA recommends that its applicants submit PTFP-related FCC applications to the FCC at least 60 days prior to the PTFP closing date. The applicant should clearly identify itself to the FCC as a PTFP applicant.

(b) In the case of FCC authorizations where it is not possible or practical to submit the FCC license application with the PTFP application, such as C-band satellite uplinks, low-power television stations and translators, remote pickups, studio-to-transmitter links, and Very Small Aperture Terminals, a copy of the FCC application as it will be submitted to the FCC, or the equivalent engineering data, must be included in the PTFP application.

(c) Applications requesting C-band downlinks are not required to submit

the FCC application or equivalent engineering data as part of the PTFP application. When such a project is funded, however, grantees will be required to submit evidence of FCC registration of the C-band downlink prior to the release of Federal funds.

(d) Any FCC authorization required for the project must be in the name of the applicant for the PTFP grant.

(e) If the project is to be associated with an existing station, the FCC operating authority for that station must be current and valid.

(f) For any project requiring new authorization(s) from the FCC, the applicant must file a copy of each FCC application and any amendments with the Agency.

(g) If the applicant fails to file the required FCC application(s) by the closing date, or if the FCC returns, dismisses, or denies an application required for the project or any part thereof, or for the operation of the station with which the project is associated, the Agency may reject and return the application.

(h) No grant will be awarded until confirmation has been received from the FCC that any necessary authorization will be issued.

§ 2301.13 Public comments.

(a) After the closing date, the Agency will publish a list of all applications received.

(b) The applicant shall make a copy of its application available at its offices for public inspection during normal business hours.

(c) A copy of the application will be available in the PTFP offices for public inspection during normal business hours.

(d) Any interested party may file comments with the Agency supporting or opposing an application and setting forth the grounds for support or opposition. Any opposing comments must contain a certification that a copy of the comments has been delivered to the applicant. Comments must be sent to the address listed in § 2301.8(a).

(e) The Agency shall incorporate all comments from the public and any replies from the applicant in the applicant's official file for consideration

during the evaluation of the application.

§ 2301.14 Supplemental application information.

(a) The Agency may request from the applicant any additional information that the Agency deems necessary to clarify the application. Applicants must provide to the Agency additional information that the Agency requests within fifteen (15) days of the date of the Agency's notice. Applicants must submit a copy of the requested information for each copy of the application submitted by the closing date.

(b) Applicants must immediately provide to the Agency information received after the closing date that materially affects the application, including:

(1) State Single Point of Contact and State Telecommunications Agency comments on applications;

(2) FCC file numbers and changes in the status of FCC applications necessary for the proposed project;

(3) Changes in the status of proposed local matching funds, including notification of the passage (including reduction or rejection) of a proposed state appropriation or receipt (or denial) of a proposed substantial matching gift;

(4) Changes that affect the applicant's eligibility under § 2301.3;

(5) Changes in the status of proposed production, participation, or distribution agreements (if relevant to the proposed project);

(6) Changes in lease or site rights agreements; and

(7) Complete failure of major items of equipment for which replacement costs have been requested or changes in the status of the need for the equipment requested.

(c) Applicants must place copies of any additional information submitted to the Agency in the copy of the application made available for public inspection pursuant to § 2301.13.

(d) Neither the Department nor the Agency will discuss the merits of an application when it is under review.
